\* Test bench value related to the lower calorific value of the fuel. Determined at continuous full-load ideal operation according to the measurement procedures in EN303-5. Practical values and seasonal efficiencies may deviate due to local conditions, fuel properties and individual modes of operation. The values do not refer to an individual boiler, but serve solely for comparison purposes between the different boiler types.

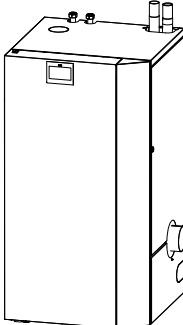

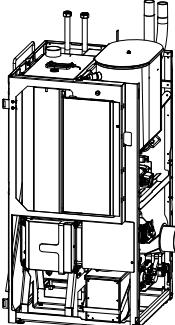

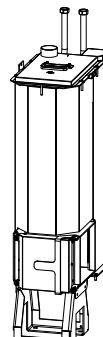

Further technical data and results of the type test available on request from your ÖkoFEN contact.

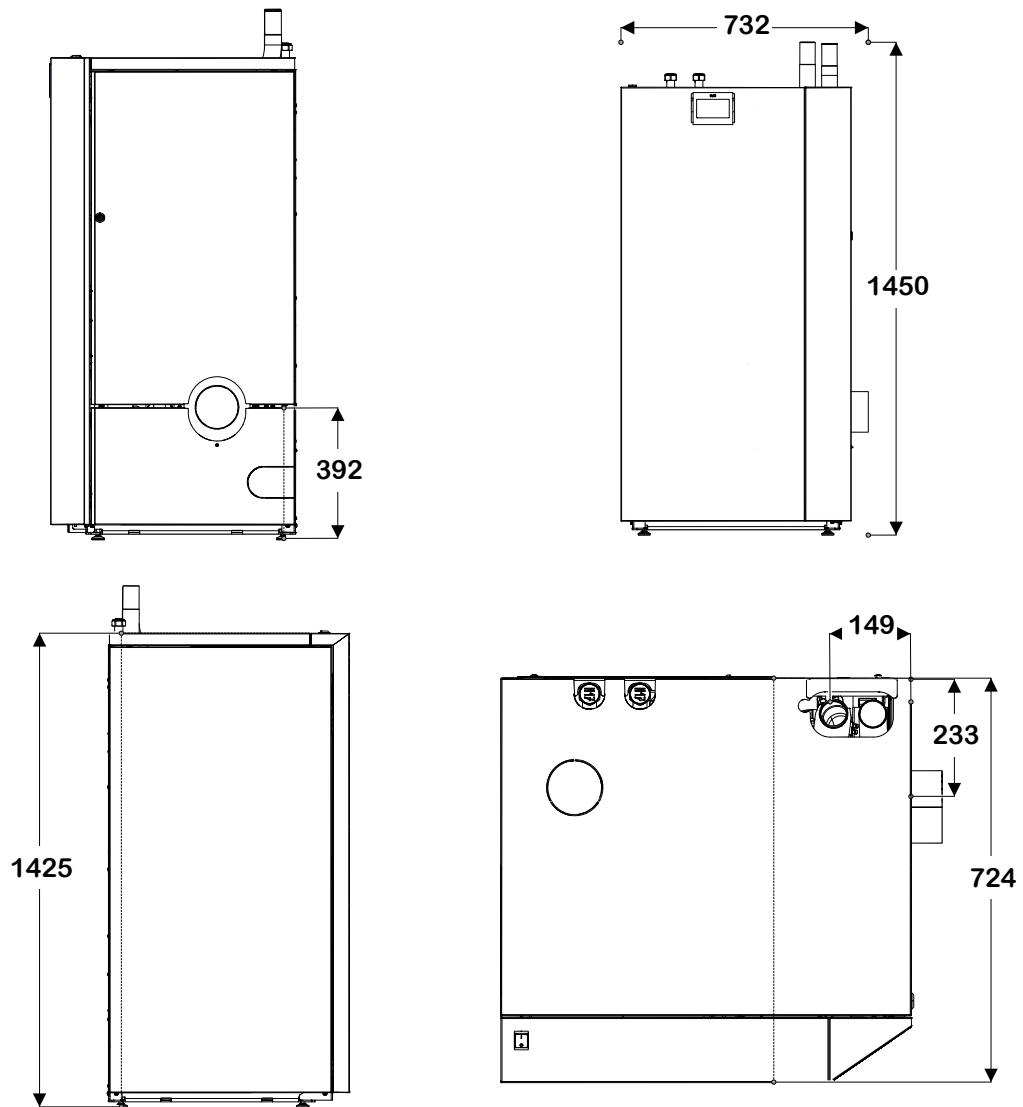

## 2 Notes on bringing the unit into the building

Before bringing the unit into the building, check the dimensions of all doors to ensure that the boiler has sufficient clearance and can be set up properly.

### Minimum door width

Door width > 73 cm	Door width > 69 cm	Door width > 40 cm
		
<i>Dismantling of components not necessary</i>	<i>Dismantle casing</i>	<i>"Dismantle all"</i>

### Boiler dimensions

### Boiler Weight

Boiler size	Pellematic Compact
Weight of boiler packaged on pallet with wooden frame - kg	338
Weight of boiler with casing, hopper and burner - kg	294
Weight of boiler without casing, hopper and burner - kg	160

### Minimum clearance dimensions required

To install the heating system properly and ensure economical operation, you need to make sure that minimum clearance dimensions indicated below are observed when setting up the boiler. In addition, make sure that legislation in your country is complied with relating to the minimum clearance of the flue gas tube.

	optimal	minimum	
	Falling below the optimal distances means additional maintenance and cleaning work.	The minimum distances must be strictly observed. The door only opens 45°.	
a	150 mm ①/② → 40 mm	0 mm ①/② → 40 mm	
b	50 mm ② → 100 mm	30 mm ② → 100 mm	
c	750 mm	450 mm	
d	750 mm	550 mm	
e	2000 mm	1800 mm	
①		②	

The indicated values must not fall below by piping or other.

### NOTICE

Due to a low boiler surface temperature, the specified minimum distances can be observed.

- Legislation in your country must be observed!
